VIKING PS4170

What makes PS4170 a unique solution?

- The waterproof GORE-TEX® material offers high breathability and better comfort. Combined with a durable thermal lining the PS4170 will perform under even extreme maritime conditions while still offering comfortable wear during constant use.
- Tailored for extended wear and maximum comfort with a host of design extras that makes it truly outstanding. Several available options can create a unique solution with a custom look.
- Manufactured to withstand the harshest conditions. A high quality finish with several reinforcements, including knee, thigh and seat area, ensure a rugged and durable suit for constant wear.
- Specially designed to comply with the latest SOLAS requirements and maximize protection against hypothermia and cold shock.

Discover the VIKING advantage

VIKING is a market leader in maritime safety, providing and servicing essential safety equipment for passenger and cargo ships, offshore installations, fishing vessels, yachts, and defence and fire-fighting industries. We can supply a full package of life saving equipment from top of the line to standard options. All products have the necessary approvals.

The VIKING headquarters are located in Denmark. Our products are manufactured at production facilities in Denmark, Norway and Thailand, working together as a team via our extensive information network.

The unique VIKING network of subsidiaries, agents and 270 certified servicing stations makes us a truly global provider offering cost-effective and convenient service when and where you need it.

Contact your nearest VIKING office to hear more about what makes VIKING so special and how we can help you make the right choice - the first time around.

BOLLE CHRONOSOFT

The ultimate in quality and flexibility with 1-hour or 6-hour SOLAS approval

The new SOLAS approved VIKING P54170 combines superior material with unique tailored design for one of the most outstanding protective suits available for marine personnel.

VIKING incorporates a waterproof, highly durable and breathable GORE-TEX® Pazifik™ outer fabric with a comfortable high-performing thermal lining. A host of carefully selected special features makes this a constant wear suit that excels in any weather condition and helps protect the wearer in extreme conditions.

A choice of detachable linings with integrated buoyancy foam makes this an ideal suit for FRB & MOB rescue teams, offshore personnel, ship & MES crews, water police, coast guards and lifeguards operating in both cold and warmer climates.

VIKING features

Lifting bucket
The integrated lifting bucket encircling the chest ensures a stable position when lifting out of the water. When used in use the strap hook is hidden under the thermal patch as an extra safety measure.

Buddy line
Specifically designed for situations where close contact to other persons is critical. Buddy line is equipped with a low beam. Stowed in slim fit inflatable pocket when not in use.

Equipment pockets
Radio pocket on left breast. Storage pocket hidden under right breast. Radio pocket on right thigh (double optional).
Three hand warmer pockets with drain holes and water-repellent flaps on top.

Wrist seals
The flexible wrist-seal neoprene cuffs are fitted with velcro-like adjustment straps for optimal comfort and extended wear.

Zipper
The high strength Dywidag™ metal zipper closes at the side of the suit for optimal comfort. Extra durable, soft and flexible ensuring the suit is waterproof. Quickly and easily closed. Zipper was included.

Retro-reflective tape
Retro-reflective tape on hood, shoulders and knees makes the suit both at sea and on land highly visible and added day and night rescue.

Light and whistle
Fully equipped with whistle, approved light and whistle.

Extra reinforcements
Critical areas reinforced: knees and Crotch™ reinforced heat wear for extra durability.

P54170 is delivered in a practical bag

Choice of options

Footwear
Choice of attached rubber safety boots with steel caps and steel sole, attached rubber boots, or GORE™ boots.

Gloves
Choice of 3 or 5 finger detachable gloves with shark and steel sole, attached rubber boots, or GORE™ boots.

Hood
Choice of fixed hood (black or orange with black trim) or detachable hood (black) in public response. Fixed hood option has a SOLAS approval for use without a life jacket.

Extra features

- select as needed:

Extra D-ring
Optional D-ring on back for effective retrieval and added safety.

Embroidered patches
Name or company logo can be incorporated into the suit with custom embroidered patches attached with a velcro-like closure on knee and/or breast.

Zipper fastened thermal inner lining
A choice of light or heavy zipper thermal linings with integrated buoyancy foam makes this an ideal suit for operations in both cold and warmer climates. Easy removal for cleaning and replacement.

Print on back
Name or company logo can be incorporated into the suit with custom heat sealed proofprinting on back.

Detachable pockets
A choice of detachable ID pockets and/or transparent map pockets. Pockets are held and easily attached to the suit with a velcro-like closure.

Sizes and colours

Sizes: XS, S, M, L, XL, XXL and SPL

Yellow fabric with grey reinforcements and pockets.

Orange fabric with grey reinforcements and pockets.

Orange fabric with blue reinforcements and pockets.
